

100 days of Practice Instructions

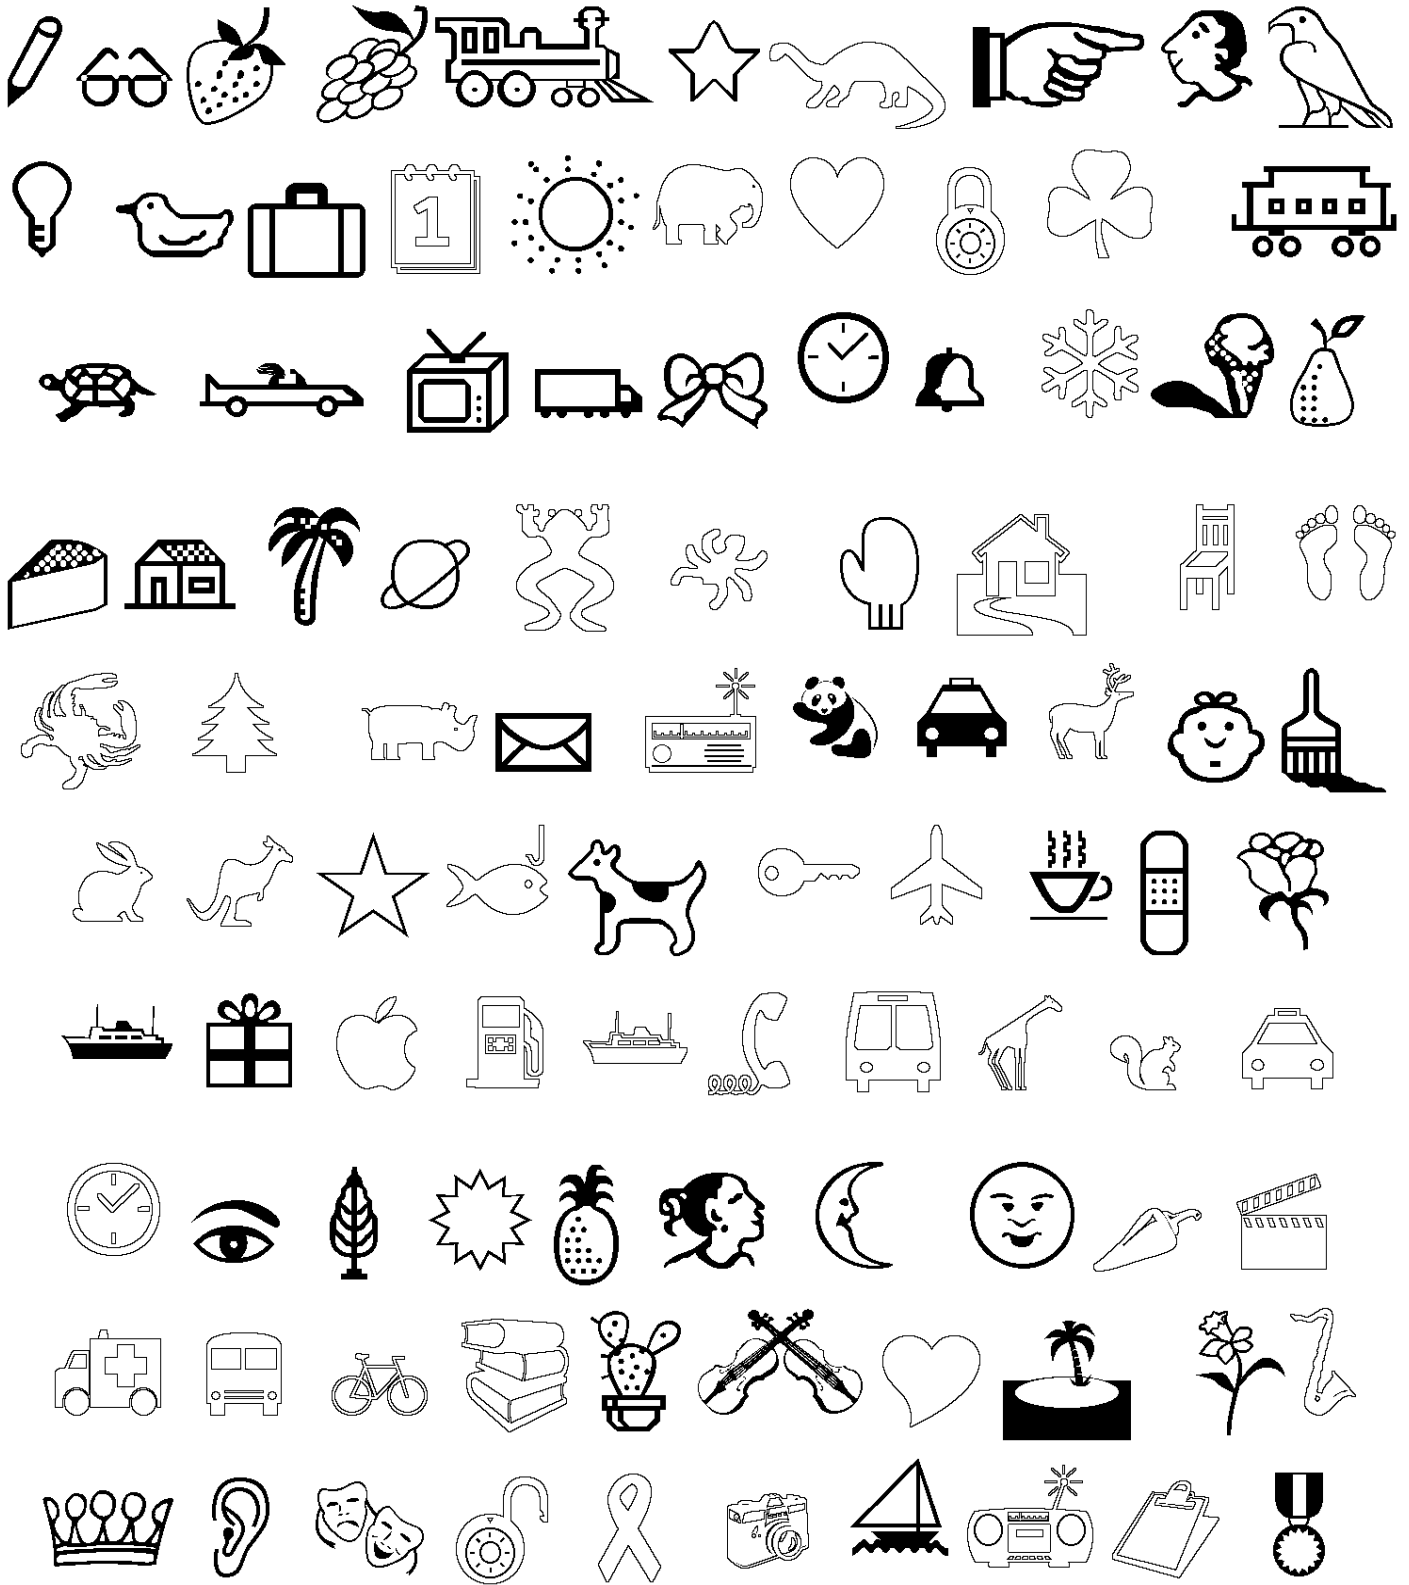

Post a copy of this chart in your room near the place where you usually practice. Each day that you practice, circle or color in another picture. When all of the pictures are colored or circled, you have reached 100 days of practice. Tell your parents, your friends, and your teacher then have a big party to celebrate!

Print the chart using the high quality setting and set for color (gray scale) for the best looking printout. To just print the chart and not these instructions print page 2 only.

This chart can be downloaded at at: <http://www.hassa.org/100dayschart.pdf>
